DIRECTOR OF CENTRAL INTELLIGENCE
Security Committee

SECOM-D-308
7 February 1978

MEMORANDUM FOR: Members, DCI Security Committee

FROM:
Acting Chairman

SUBJECT: Sound Attenuation Test for Secure Conference
Rooms

REFERENCE: Annex C, pages 35-37, of USIB Policy Statement
Establishing Physical Security Standards
for SCI Facilities, effective 30 April 1973

Attached is a proposed procedure for field testing sound attenuation levels in secure conference rooms. The method in paragraph 4h of reference was found to be too complex to be feasible, and the National Bureau of Standards is not known to be preparing a simplified procedure as originally contemplated.
